- Channel weights are for fiberglass body only, add frame to complete weight
- For maximum hydraulic efficiency remove trash bucket from catch basin
- Closing caps can be cut down to suit all channels
- Add 2" to length of each channel for female joining flange (only applicable at shallowest end of run)
- Frames supplied with plastic snap-fit studs for connecting to fiberglass body
- (F) =female
- (M) = male
- Add 0.12" (3mm) for overall depth of channel
- Add 0.12" (3mm) for overall depth of catch basin
- * Grade 304 stainless steel frames, ACO recommends the use of non-galvanized grates with stainless steel frames to avoid galvanic corrosion
